

REVERSE OSMOSIS

The **Hyundai Clean Water System** is the premier point-of-use drinking water system.

Using advanced reverse osmosis purification technology, the Hyundai coolers produce low cost, great tasting drinking water... at a fraction of the price of the old 5 gallon jug delivery service... without the hassle. It's maintenance free, with no bottles to lift or store and no sanitation or cooler maintenance. Why pay staff to maintain your water cooler? Think about it.

You can feel good about the cost savings derived from operating an environmentally smart system. It's no longer necessary to support a large exhaust emitting delivery truck or mountains of plastic bottle waste. Now there's a better way... the Hyundai Clean Water System.

ESSENTIAL LUXURY

Water...

the essential luxury is delivered through the state-of-the-art Hyundai Clean Water System... always **Pure & Fresh** and **Never Empty!**

The decision, and the choice to improve your water service comes with understanding the benefits of the modern alternative and recognizing the current method of providing healthy drinking water to the staff and clients in 5 gallon jugs is inefficient, expensive and often not sanitary.

Aqua Systems drinking water service is distinct and different from the 5 gallon jug delivery service. We represent the Hyundai Corporation's Health and Wellness products and specifically the Hyundai Clean Water System. The water coolers utilize reverse osmosis filter technology to produce an unlimited supply of highly purified, great tasting drinking water at a low fixed monthly price. Reverse osmosis technology is recognized as the leading technology for water purification and the Hyundai Corporation leads the industry in utilizing the technology in their design and engineering. Pamper yourself... reward your staff... with the best for less.

TREAT YOURSELF WITH THE CAFEJO SYSTEM

OPOD

Easy to use.

With the touch of a button, anyone can make the perfect cup of coffee... Always fresh!

Convenient.

No measuring, no mess, no wasted coffee.
